

13th Patient, Family and Donor Day

March 24th 2019
Frankfurt, Germany

Dear Patients, Family members, Donors and Friends,

We are delighted to invite you to attend the 13th annual European Society for Blood and Marrow Transplantation Patient, Family and Donor Day, taking place at the Messe Frankfurt, Germany on Sunday March 24, 2019. This day has become an increasingly integral part of the EBMT Annual Meeting, and for the first time in Frankfurt 2019, the program has been extended to include a second parallel session dedicated to Patient Advocates.

This Patient, family and donor day session will include clinical experts on a range of post-transplant issues.

The patient advocates session will include international speakers focussing on issues relevant to Organisations who advocate on behalf of transplant patients.

This unique and special day is free to attend and we are please to announce that the sessions will also be live-streamed in order to reach as many patients, along with their family and donors, as possible. We look forward to welcoming you to Frankfurt!

Sehr geehrte, liebe Patienten, Familienmitglieder, Spender und Freunde!

Wir freuen uns, Sie/euch zum 13. EBMT-Patienten-, Familien- u. Spender Tag einladen zu dürfen, der anlässlich des Jahrestreffen der Europäischen Gesellschaft für Blut- und Knochenmarktransplantation (EBMT), am Sonntag, den 24. März 2019 in der Messe Frankfurt stattfindet. Dieser Tag ist zu einem immer wichtigeren Bestandteil der EBMT-Jahrestagung geworden. Das Programm wird 2019 erstmals in Frankfurt am Main um eine zweite parallele Sitzung erweitert, die den Patienten-Vertretern (Patient Advocates) gewidmet ist.

Experten werden sich mit einer Reihe von Fragen nach der Transplantation befassen.

Die Patient-Advocate-Sitzung wird von internationalen Experten besetzt sein, die sich auf besondere Themen konzentrieren, die für ihre Organisationen und transplantierte Patienten relevant sein werden.

Dieser einzigartige und besondere Tag ist kostenfrei!

Außerdem möchten wir Ihnen mitteilen, dass die Sitzungen live übertragen werden, um so möglichst viele Patienten mit ihrer Familie und ihren Spendern zu erreichen. Wir freuen uns, Sie/euch in Frankfurt zu sehen.
